We are also updating our national directory of service providers. The directory of service providers includes providers who have experience working with immigrant victims of domestic violence, sexual assault, U-visa crimes, and human trafficking. We invite our subscribers to check to make sure that the information for their organization is accurate and up to date in our system. In addition, we invite you to check if there are any organizations and service providers located in your state that are no longer in operation that are still in our directory. If you find any such organizations, please inform us by emailing [info@niwap.org](mailto:info@niwap.org).
